2027-01-20	11:00	Eye specialist	Annual diabetic eye exam	Vision Care Centre

Care Instructions

• Drink at least 8 glasses of water daily unless the doctor says otherwise.

• Keep salt intake low because of blood pressure and kidney health.

• Check feet daily for cuts or sores because of diabetes.

• Avoid anti-inflammatory painkillers such as ibuprofen because of kidney disease. Paracetamol is safer.

• Diet: low sugar, high fibre, small frequent meals.

• Walk 30 minutes daily as tolerated with the knee.

Doctor's Notes

2026-09-25: Patient is cooperative and adherent to medicines. Watch for evening ankle swelling. Monitor kidney function. Do not prescribe penicillin-class antibiotics.
